Hi, my name is **Anna Zeiss**,

I work part-time online since 2012. I have purchased a lot of shiny digital products on how to make making money online. Some of them that work, but some are also just pure crap. We are just faced with information overload day in out

and most of the times you get lost in the world of information the next best thing yep ill buy that FAIL just getting lost without knowing which direction or system to choose looking for the golden egg.

Well, there are many ways to make money online. Just to name a few, like PPC Marketing, CPA marketing, Social marketing and PLR marketing the list goes on & on.

However, almost all online marketing methods involve a key process.

FAST FREE TRAFFIC

if u can't get traffic you simply just don't make any money its as simple as that

no matter how much you research or the most demandable niche on the planet no traffic
no business

ok this should not take long short sweet simple straight to the point

ok what iam going to show is nothing new in fact this idea was released not long ago

but for different reasons more of a short term thing but it worked and it made money
which was the whole idea well done,

so the cats out of the bag so I may as well put it out there.

so iam going to use it for the same reasons (make cash) and show you how you to can
make cash but more of a long term thing, as in where you can keep making good money and
rinse and repeat BAM.the money is in the list thay say. This is nothing but the truth how
about the more money is in the free list that's right this is a loophole that has been around
for some time, so YOU may as well jump on the band wagon while its still goin!

Just before I do just a little taste of what free traffic can bring you see below its no Guru
status but it adds up at the end of every month (KA CHING)

Ok, let's start.

Let's keep it simple: FREE Traffic then build you list from it and Convert the list into Cash

KA CHING.

We know there is a lot of traffic from Bing Ads. Microsoft and Yahoo! have teamed up to provide one place to purchase advertising on both Bing and Yahoo! Search, which hold approximately 30% market share for searches combined" Bing Ads are a very reputable PPC Network.

So here's the thing you can get Bing Ads coupon from places like: your webhosting accounts, e.g. see my screenshot below

. You can collect \$75 to \$120 free credit. The only

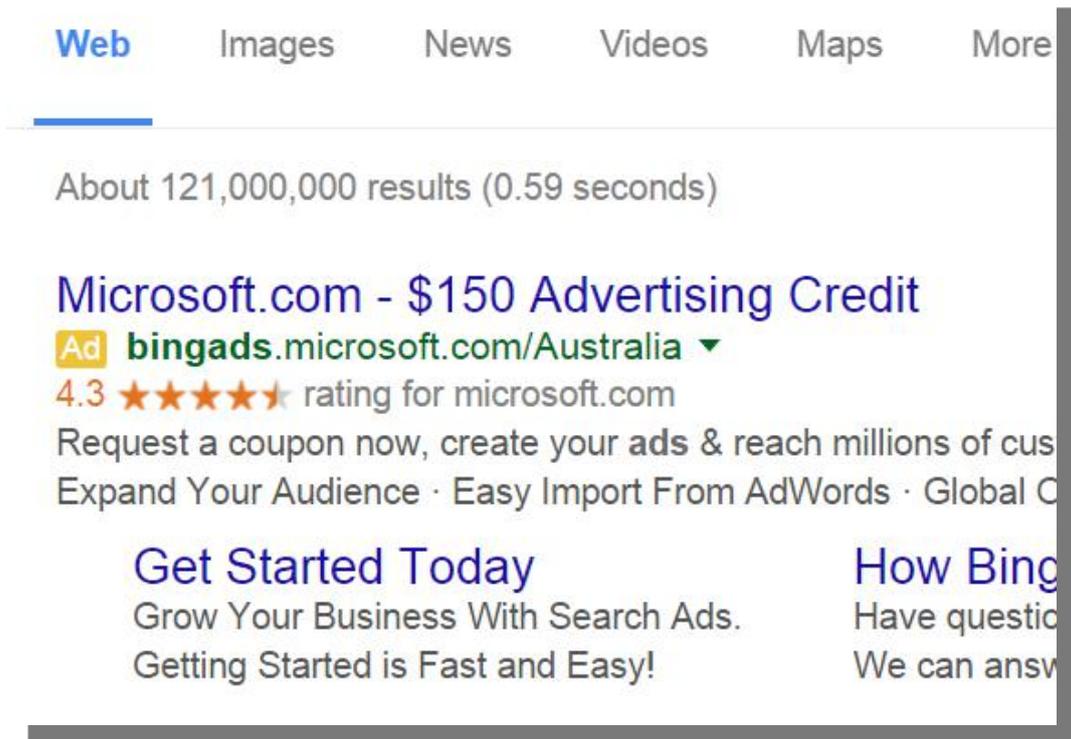

catch is you have to open a hosting account and as well as your bing ads account [click here](#) which is all part of the process , you just simply open a bing ads account, (<http://advertise.bingads.microsoft.com/>),

ok check this out a little trick so no money comes out of your pocket read very carfully

- 1) Go to hostgator.com
- 2) Select Hatchling web hosting plan
- 3) Put "UNLIMITEDEMAILS" Coupon code
- 4) when you fill application select I have already have a domain
- 5) Then Put any your area website
- 6) Complete with 0.01\$ per month for unlimited e-mails

This might not work anymore they might have changed the setting its 100% white hat ;o).

Kaching Bing yes mam thank you mam ;o)

request a **FREE** coupon to start your PPC ads, select an offer in you preferred niche set up

some campaigns send them to a squeeze or Landing page capture their email and build a

list that's it, then you will set an email with your preferred email auto responder and then

Make Money. And inside this product, i will show you exactly how.

Step 1:

Open Your Bing Ads account.

[Click Here to Sign up](#)

Go to Bing Ads website: <http://advertise.bingads.microsoft.com/en-us/home>

Open an account, Bing PPC is highly recommended as the service is at a very high standard 5 stars all round.

The cost per click is much lower than Google Adwords.

Ok moving on once you opened your account simply contact the Live Chat client inside Bing Ads account to request your ads coupon, the credit is ranging from \$75 to \$120.

All of us are eligible to request one time. And it will take a few days for it to be processed then approved.

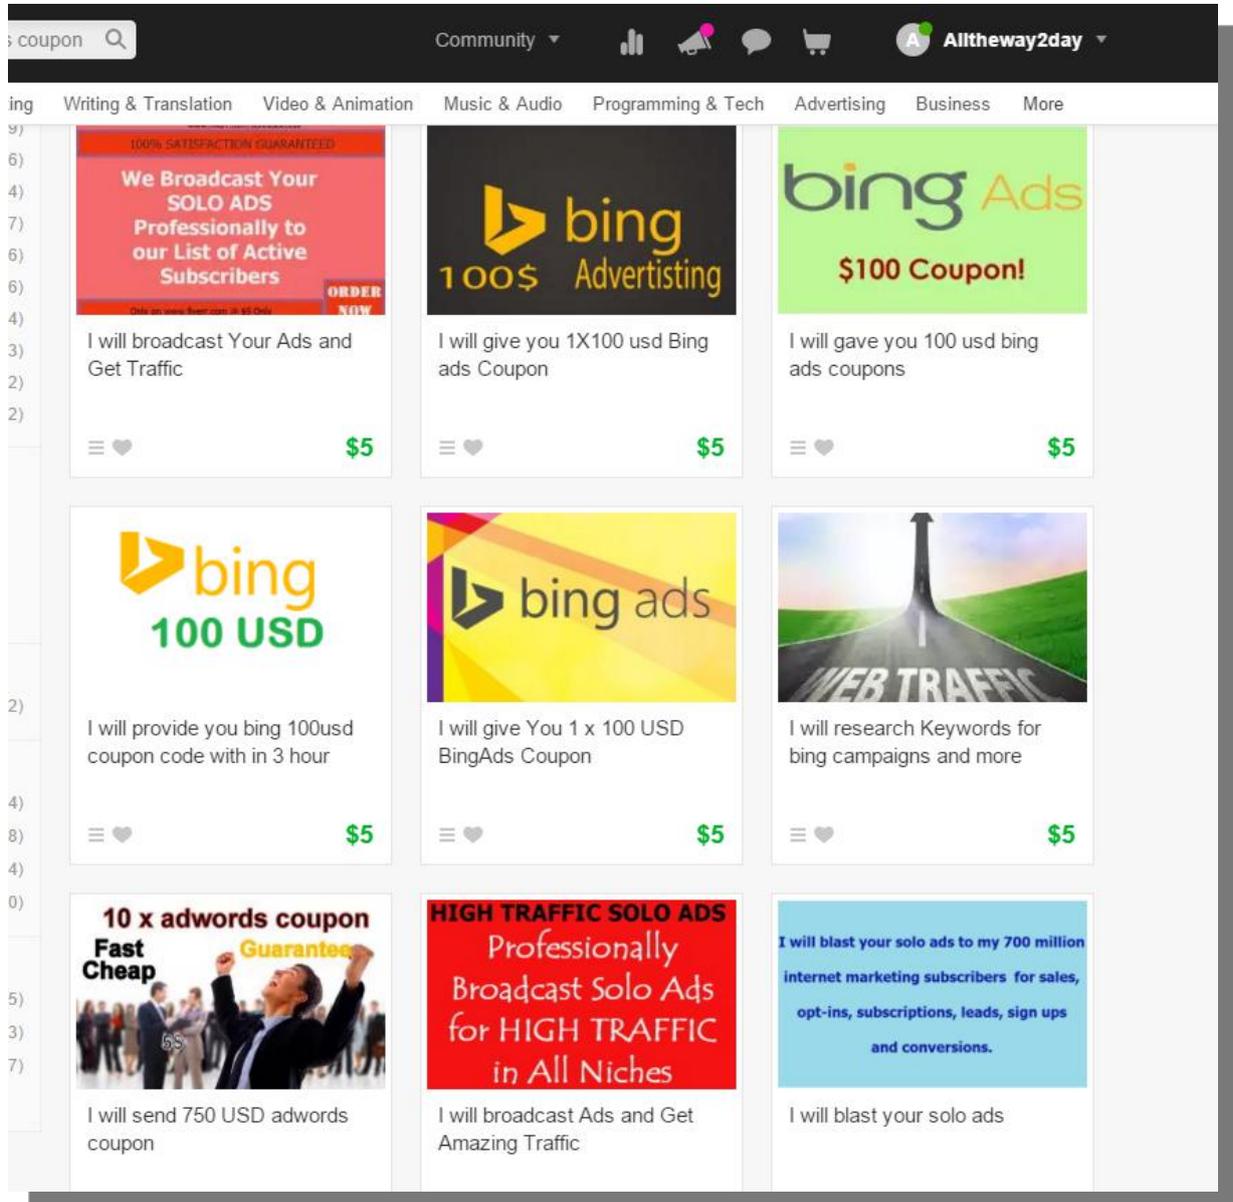

However, if you're like me and don't have the patience to wait, you can get the coupon immediately from

Fiverr.

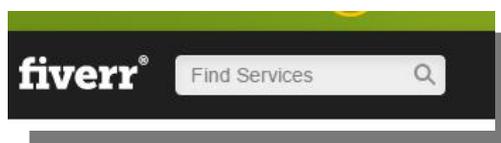

Click [Here](#) To Access Fiverr and Get \$100 Coupon Now

The link above should take you to the exact page you need

Here is the example below

All you do is sign up with Fiverr if u don't already have an account the search in the find service box see below

Once you have processed it with the seller u should have it in no time at all just check with them first sometimes they can take their time can be very annoying when your all fired up to go then you gotta wait mmmmm I hate that.

Ok so you got your coupon lets go and set up your account but first we need a landing page rather than drag this out I will keep it short quick and simple I use leadpages you can't go wrong, very professional I highly recommend them

Here is the link:

<https://www.bluehost.com/>

Now 2 ways we can go about this we can sell a product through our ad campaigns or we purely just collect emails and give away free products until we start promoting products after you have built a good relationship with your subscribers

all I personally want to do is collect an email list so I can promote my products and affiliate product later on and send out heaps of freebies keep everybody happy ;o).

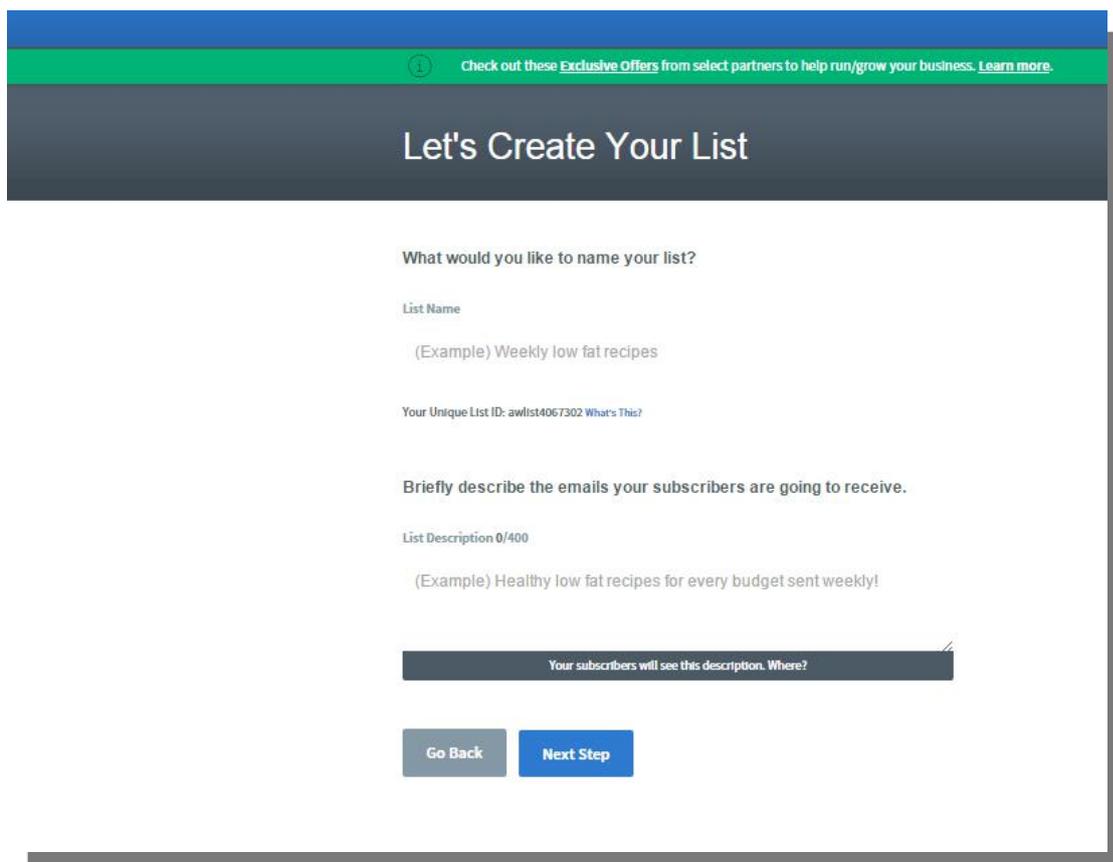

I will show where to get all these freebies a little bit later in this eBook ;o)

The money is in the list. so the very next step is to set yourself up with email auto responder account, aweber or get response, both have the good and the bad I use aweber personally its really up to you who you want to use.

Go ahead and sign up for an account you also have 30 days free trial then \$19.00 usd per month after that.

Ok lets set up Aweber

Step 1 create your list

The screenshot shows the Aweber 'Let's Create Your List' form. At the top, there is a blue header bar with a green notification banner that says 'Check out these Exclusive Offers from select partners to help run/grow your business. Learn more.' Below the header, the main title 'Let's Create Your List' is displayed in a dark grey box. The form itself is white and contains the following fields and text:

- Question: 'What would you like to name your list?'
- Field: 'List Name' with the example '(Example) Weekly low fat recipes'
- Text: 'Your Unique List ID: awl1st4067302 Whats This?'
- Question: 'Briefly describe the emails your subscribers are going to receive.'
- Field: 'List Description 0/400' with the example '(Example) Healthy low fat recipes for every budget sent weekly!'
- Preview box: 'Your subscribers will see this description. Where?'
- Buttons: 'Go Back' and 'Next Step'

its pretty straight forward That's it! Now, when you send your broadcast message it will be sent to only the subscribers who completed your follow up series.

Approve Your Confirmation Message

A confirmation message can be sent to a new subscriber when they join your list. It asks for their permission to receive email from you.

Below this is a navigation bar with buttons for "Home", "Messages", "Subscribers", "Sign Up Forms", "Reports", and "List Options". The main heading is "Design" with the subtext "Customize the look and style of your form." To the right of the heading are buttons for "Design", "Settings", and "Publish". On the left side, there is a "Fields" section with a list containing "US Address" and "Name", and a "Create a New Field" button. The central area is a design canvas showing a "Sign Up" form template. The form includes "Name:" and "Email:" input fields, a "Sign Up" button, and a privacy notice: "We respect your email privacy. Powered by Mailer Email Marketing". Above the canvas is a "Templates" gallery with various design options like "Big Sale", "Gross", "TICK TICK", "Stylish", and "Fast Time". Below the canvas are two buttons: "Save Your Form" and "Go To Step 2".

Then just click one of the templates above you can edit as you pls have a play around when you're done go to the next step.

Once you have got to this stage Save your form the green button on the left Continue

Then the blue button once it is saved to the next step.

Step 6 Publish to you website/landing page...

The screenshot shows the 'Publish' section of the AWeber interface. At the top, there is a navigation bar with 'Home', 'Messages', 'Subscribers', 'Sign Up Forms', 'Reports', and 'List Options'. Below this is a 'Publish' header with a sub-header 'Place your form on your site.' and three buttons: 'Design', 'Settings', and 'Publish'. The main content area is titled 'Who Will Publish This Form To Your Website?' and contains three options:

- I Will Install My Form**: You are comfortable with HTML and have access to edit your pages.
- My Web Designer Will Install My Form**: Send an email to your designer containing the HTML and the instructions they need.
- Have AWeber Host My Form**: Link to a page that has my form.

At the bottom of the interface, there are two promotional boxes: 'Exclusive Offers from our Partners' and 'Quick Help'.

As you can see it gives you three options and all three are very easy

The first option is do it yourself all you do is copy and paste the code into your website

If you can copy and paste you can do this. If your not comfortable with doing that then Fivver is another place to have a look to outsource it. The third option is to get Awebber to host it for you the good thing about it is if you're a newbie it's a lot less work but on the other hand when you use a third party rules and regs change at any given time so keep updated with their changes/updates etc.

Ok that's Awebber Auto responder set.

Ok you need to set up some follow email to you subscribers iam not going into this with any detail as the page you see below in Aweber has a short video on how to do this watch and follow the steps as you go it's pretty simple ;o).

There's a whole new world out there when it comes to email marketing watch this space for more information Keep an eye on your emails from me as I will be sending tips and tricks regarding email strategies.

Hard to get stuck with setting this up there are tutorials all the way through it. Once you're done with that you need to set up a broadcast email or a follow up emails We make setting up your AWeber mailing list easy! Once you first log into your account you will be prompted to set up your basic settings for your first list. We go over those steps below.

After you create your account with AWeber you will be sent several emails. One of those emails will contain your login name and password.

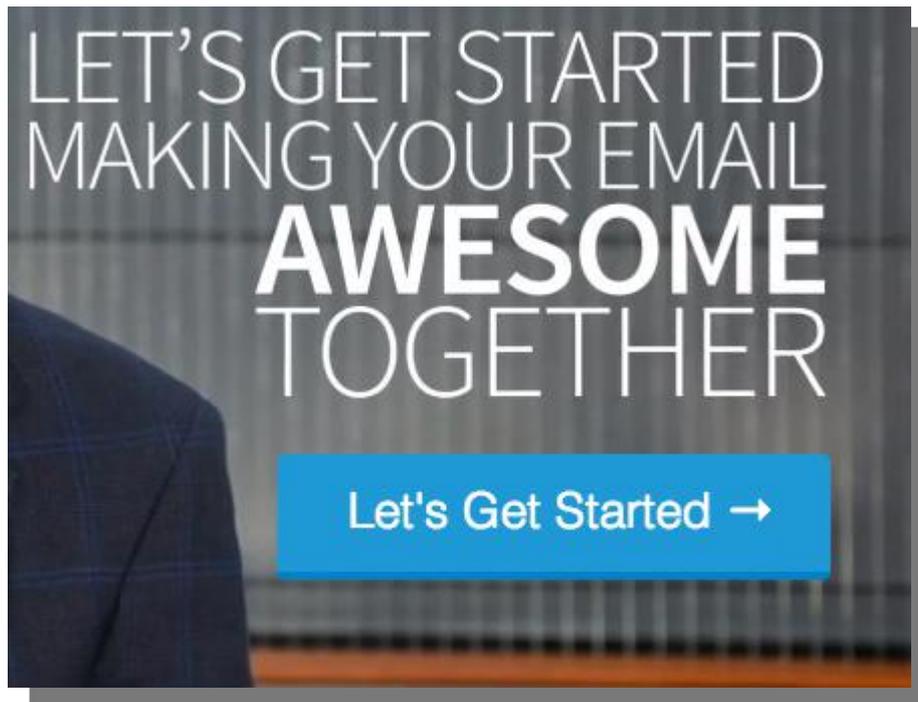

Here is an example of how that email might look:

Once you have retrieved your login details go to our sign in page to log into your account.

When you first log into your account you will see our welcome video with a message from our CEO Tom Kulzer. After you are done watching the video click the "Let's Get Started" button that appears in the corner of the video.

Next, you will be taken to the "Tell Us About Yourself" page. First, enter the name of your company or program that you are marketing. Then enter the website URL for the website that is associated with your company or program.

Your Company Name
<input type="text" value="The Widget Workers of America"/>
Your Company Website
<input type="text" value="http://www.thewidgetworkers.com"/>

After you have entered your company details you will then need to enter your "Contact Address." Enter a postal address that you can be reached at by subscribers if needed. This address will automatically appear at the bottom of any messages that you send out. A valid postal address is required by the CAN-SPAM Act.

Which address would you like to include at the bottom of your emails? [Explain This.](#)

Address 1
1234 Widget Way

Address 2

City: Widget Town State/Province/Region: Pennsylvania

Postal Code: 123456 Country: USA

When you are done entering your "Contact Address," enter your "Sender Name" and "Sender Email" address for your list. This is the name and email address that your messages will appear to come from when subscribers receive your messages. Once you are done filling that out, click the "Next Step" button.

What sender name and email address should appear with your emails?

Sender Name
Tester Jones

Sender Email
testerjones@example.com

Next Step

Next, you will be taken to the "Let's Create Your List" page. On this page enter your "List Name." Your "List Name" can be up to 32 characters in length and it is not something that

subscribers will see. The "List Name" is mainly for your benefit so you can identify which list you are working on from within in your account.

What would you like to name your list?

List Name

Widget Workshops 2014

Your Unique List ID: awlist3452947 [What's This?](#)

After you have entered your "List Name" you will see the area to enter your "List Description." Here you will want to describe what your mailing list is for. There is a 400 character limit for the "List Description." Subscribers will see your "List Description" on the unsubscribe page if they ever go to unsubscribe from your list. Once you are done entering your "List Description" click the "Next Step" button.

Briefly describe the emails your subscribers are going to receive.

List Description 88/400

Informational emails for anyone who attended any of the Widget Workers workshops in 2014

Your subscribers will see this description. [Where?](#)

[Go Back](#) [Next Step](#)

On the last page there will be the confirmation message that is sent to subscribers when they are added to your mailing list. This email is sent to subscribers in order to gain their

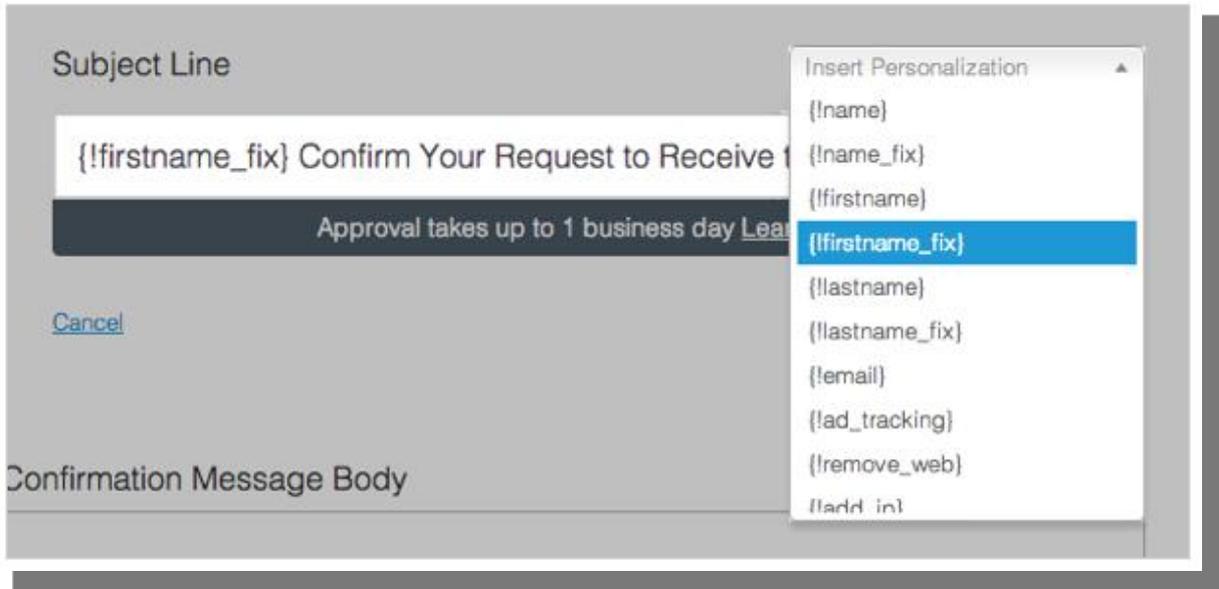

permission and to show that they want to receive information from you. Even if you do not plan on using a confirmation message, you will still need to set it up.

The first thing you will need to do is setup the subject line for the confirmation message. If you choose to use one of our pre-approved subject lines you will be given a drop down menu with those pre-approved options.

If you do not wish to use one of our pre-approved subject lines you can always type in your own subject line. Just click on the "or, Request Approval for a Custom Subject Line" link.

If you choose to type in your own subject line, please allow up to 1 business day for that subject line to be approved. In general a custom subject line must tell subscribers who you are, explain why they are receiving the confirmation message, and explain what they need to do with the message

After you have selected your confirmation message subject line you can edit the confirmation message itself. Just click on the "edit" button to edit the introduction or the signature of the confirmation message

A link is provided for confirmation. Below the link, there is an instruction to click the link to give permission. Another instruction says to ignore the message if the user does not want to confirm. At the bottom, there is a 'Thank you!' message and the name 'The Widget Workers'. There are two circular 'edit' buttons, one in the top right and one in the bottom right.

Once you are done editing your confirmation message content just click the "Approve Message & Create List" button at the bottom of the page.

You are now complete with setting up the basic settings needed to get started with your mailing list.

There are more options and features you can use with your list. Navigating through your list will help you in setting up those features that best meet your needs!

Selecting an Offer from CLICKBANK

So many people seem to think **CLICKBANK** is just another affiliate network, that's not all it is. The platform is more of a marketplace

for product affiliates and vendors to make money together minus all the forests of paperwork & agreements that you would normally expect.

If you're newbie to affiliate marketing, the idea of earning commissions for promoting other people's products can be both exciting and confusing.

How do you know how much you'll earn? How is the sale and reported? When will you get paid for the sales?

The most popular affiliate program is run by **CLICKBANK** - the world's largest provider of digital products.

Essentially eBooks & software.

You can choose from over 30,000 PLUS Products in a wide range of categories and their affiliate program is very simple to join.

If you have not signed up to CLICKBANK yet click [here](#)

Here's a simple overview of how CLICKBANK commissions work:

You find a product to promote and create a customized HopLink.(Affiliate link) e.g below

You enter your account name then it generates the hoplink for you into another window shown above which you copy and paste it where its needed. Pretty straight forward

You enter your account name then it generates the hoplink for you into another window shown above which you copy and paste it where its needed. Pretty straight forward

You enter your account name then it generates the hoplink for you into another window shown above which you copy and paste it where its needed. Pretty straight forward
Retail Price: \$29.95

Subtract 7.5% + \$1: -\$3.25

Net Sale Amount: \$26.70

55% of Remainder: \$14.69

Therefore, as the referring affiliate for this sale, you would earn \$14.69.

Commissions for recurring billing products are slightly different. See Promoting Recurring Billing Products for details.

The maximum commission you can earn on a single sale is \$150.

TO EASY

Getting Paid

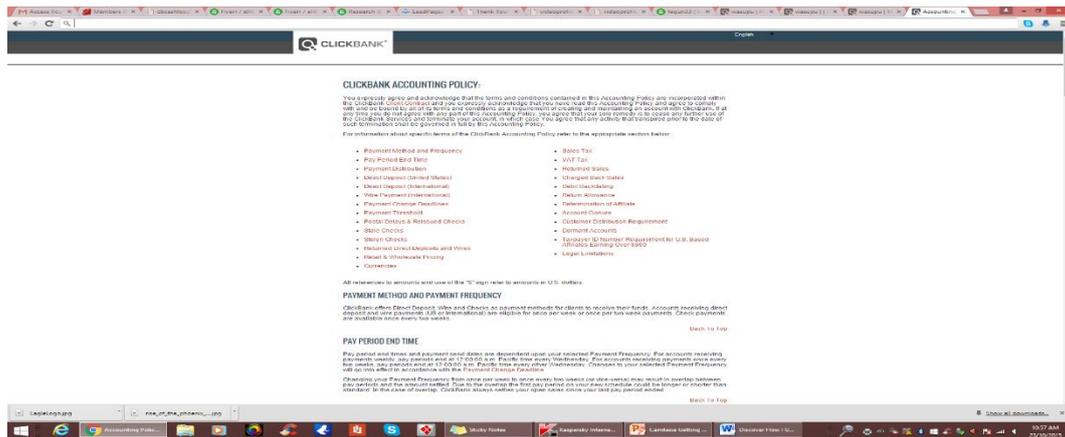

Obviously, the goal of being an affiliate is to get paid for your efforts. To receive your first commission payment, there are two requirements:

You must reach your payment threshold, which you set in your Settings.

You must meet the Customer rules & regs & the accounting requirements.

For more details about these requirements, see below that is the page once you have logged in you need to go there and check it out for more details

\$2K CLICKBANK MACHINES - 2016

Once you've met these requirements, you can start receiving payments. For more details about CLICKBANK'S payment schedule see Pay checks.

All accounts default to a paper check payment method until you elect to change to direct deposit or wire. If you're located in an eligible country, you can start receiving payment via direct deposit. Once you become eligible for direct deposit, you can specify this as your payment method in Settings->Payment Information. If you are not within a country supported by direct deposit you may be eligible to receive wire payments or can continue to receive payments with a check.

Refunds and Chargebacks

One question you may have is whether you will still receive your affiliate commission if the product is returned or if the customer requests a chargeback on the purchase. Unfortunately, the answer is no. All money is returned to the customer, so the vendor and affiliate must return their portions of the sale as well.

Because of the 60-day return period for all CLICKBANK products, they utilize a return allowance to cover the possibility of returns.

Ok now that the intro's are out of the way

In this guide you'll see you exactly how to overcome this barrier and start earning commission with CLICKBANK ASAP

Choose Your Niche

Here are some strategies and tips for choosing the right niche for your new affiliate business. Be sure to

spend plenty of time on this step! Don't rush this step it when getting started this make or break you this step will determine whether you'll be successful or not.

What are you interested in ?

Below I have listed 4 areas to research

Hobbies Gardening-Billiards-Gardening	Passions Fitness-Courses-Education
Problems Hair loss-Depression-Home Repairs	Trends Home Schooling-organic Eating-Health Living

So think about what topic to choose from whatever you pick stick with it ,you need to get Involved in the

Community and constantly create content for the niche you choose to market You Goal is **Become an Authority in the Niche**

Do people Spend Money in this Niche?

Market Research. Hint: this is where the magic stems from, okay? You need to do some market

Research and you can simply find this information by searching on Google or Facebook.

What frustrates your marketplace? What keeps them up at night? What annoys them? What are their pains? What are their problems? What do they want to overcome or learn about? I'm telling you, this is

where you find out what they want and it only takes a few hours. Once you know what they want you can create it. You don't want to have created a product and finding out it's the wrong

product and nobody wants what you've created? See? This gives you the advantage this is why this will put you light-years in front of all the other affiliates

Go and have a look in the news agency and check out the magazines newspapers they sell see what's Selling also advertising billboards have a look at the front page of Google and Bing check out the PPC ads if people are spending money on

the marketing of these products there's a good chance they are selling online.

Amazon is another place you can see what their top products are and this can help you choose what to promote. Also associations and groups

Are There Products to Promote?

Info Product?

Physical products?

Selling a combination of info & physical products if possible this would be ideal.

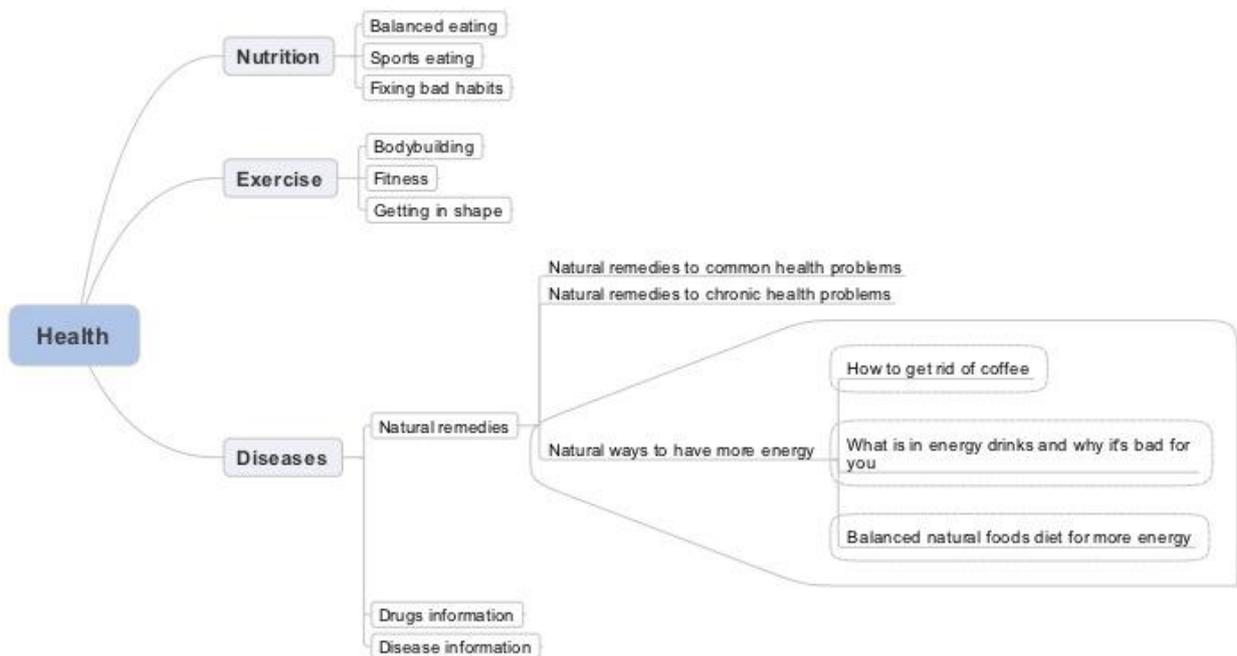

(Pick a category then then the niche followed by a sub niche e.g below)

Category	Niche	Sub-Niche
Health & Fitness	Dieting	Weight Loss for Busy Mums
Cooking	Baking	Gluten Free Cooking
Sport	Soccer	indoor soccer

STICK TO A TARGETED AUDIENCE

Most people go to broad

Heres a simple mind map to give you an idea of narrowing it down using the Health Niche.

The screenshot shows the Bing Ads interface for a campaign named 'CB Diabetes'. The campaign is enabled with a budget of 20.00/day and is located in Australia. The 'Keywords' tab is selected, showing a list of 575 keywords. A red arrow points to the 'Add keywords here' text above the table. The table has columns for 'Keyword' and 'Ad group'. The keywords listed include 'natural diabetes treatment', 'signs of diabetes', 'cure type 2 diabetes', 'diabetes blood sugar level', 'diabetes diet plan', 'diabetes diets', 'diabetes herbs', 'diabetes treatments', 'diabetic diet for type 2', 'herbs for diabetes', and 'symptoms of type 2'. All keywords are assigned to 'Ad group #1'.

Although Bing ads still accept direct affiliate linking at the moment, but it's better to use redirect link.

All web hosting allow redirect link, I just take Godaddy for example:

The screenshot shows a web hosting control panel with several service icons. At the top, there are icons for WordPress Blog, Joomla portal, Drupal cms, and phpBB forum. Below these are two main sections: 'Domains' and 'Email'. The 'Domains' section includes 'Addon Domains', 'Subdomains', 'Aliases', 'Redirects', 'DNS Manager', and 'Preview Website'. The 'Email' section includes 'Accounts', 'Email Wizard', 'Forwards', 'MX Entry', 'Default Address', 'Autore responders', 'Mailing Lists', 'Track Delivery', and 'Global Filters'. A red arrow points to the 'Redirects' icon in the Domains section. A red banner on the left side of the panel reads 'WANT TO BE TAKEN SERIOUSLY?'.

automatically redirects users to www.example.net. For more information, read the [documentation](#).

Add Redirect

A permanent redirect will notify the visitor's browser to update any bookmarks that are linked to the page that is being redirected. Temporary redirects will not update the visitor's bookmarks.

Type **301 redirect**

Permanent (301)

Step 5:

Adjust keywords bid.

Ok, when our ads is set up, it will take a few minutes for Bing to review.

When the ad is approved, then ads will show and clicks will come.

In this Clickbank Free Cash Loophole, we directly link the clicks to offer, no need to make any landing page, and your Bing Ads coupon will have around 1000 clicks, your will get at least 3 to 5 sales from this method. Based on our experience, direct linking with this CB offer, every around 250 clicks will make you one sale, which is a rebilling sale.

Set all keyword bid to \$0.15. But actually you will just spent \$0.09 CPC, which is pretty good.

The coupon is around \$120, so you will have around 100o clicks.

In a few days, you just go to Clickbank to check, there will be 3 to 5 rebilling sales of CB venus weight loss offer.

And this method works for all people. No experience needed!

We have discovered this Free Money Loophole in Clickbank since 2011, and this loophole still works for today.

It's time for you to take action now.

Especially if you are a newbie for online marketing, this can be a perfect loophole to make your first \$100 online.

Or if you are new to CB wants to start Bing Ads, this also works well for you.

Bid Adjustmnts

Bid adjustments	Tracking	Improving ad position	Get your quality score
-----------------	----------	-----------------------	------------------------

Bid adjustments

By adjusting bids to certain customers, you can help improve the odds of showing your ads to that targeted audience. If you wanted your ads to be seen by 25-34-year-olds and your bid on the keyword "coffee" is \$1.00, you would add a 20 percent bid adjustment for the age group 25-34. Now when a customer of the targeted age searches for "coffee," your bid is \$1.20, and your ad is more likely to display. Here's how to [enable bid adjustments](#).

Tracking

-----------------	----------	-----------------------	------------------------

Tracking customer activity

It's easy to measure the effectiveness of your ads. You can track conversions and other site activity — like sales, quote requests or sign-ups — associated to your ads by creating goals and pasting tracking code (or known as a tag) into the related webpages.

- 1 Sign in, click the **Campaigns** page, and then click **Shared Library** in the left-hand menu.
- 2 Click **Goals** in the left-hand menu and **Create goal**. Follow the on-screen instructions to create the goal.
- 3 Assign a **tag name** and **tag description** to your goal under the **Tag** section.
- 4 **Save** your goal. Once you've created your goal, place the Bing Ads tag associated with it on the specific web page in which you are tracking the behavior.
- 5 In the **Goals** view, select the goal you want and click **view tag script**. The tag script will open in a new window.
- 6 Directly copy the script by clicking **Copy tag script** or share it by clicking **Email tag script**.
- 7 Add the provided tag script to the appropriate pages on your website.

Improving Ad Position

-----------------	----------	-----------------------	------------------------

Improving your ad position

Here are a few ideas to help you get your ads into those favorable positions:

- **Increase the relevance of your ad** by making sure your ads are closely related to both your keywords and your landing page.
- **Increase the relevance of your landing page** with interesting and upfront products and offers. Try to avoid gimmicks.
- **Write more effective ads** by showcasing specific content and talking to your customers in their language.
- **Adjust your bids** for keywords and targeting. The higher you bid, the more likely you'll outbid others for the same keyword and thus improve your ad's position.

Get your quality score

Your Bing Ads **quality score** shows you how competitive your ads are in the marketplace by measuring how relevant your keywords and landing pages are to customers' search queries. See your score on the **Campaigns**, **Ad groups** and **Keywords** tabs on the **Campaigns** page.

Quality score values

You should always try to have a quality score of 6 or better. Here's what the numbers mean:

1-5	6	7-10	-
The keyword is underperforming in the marketplace — perhaps it's not relevant to your ad, or the ad needs a rewrite. Its click-through rate (CTR) is lower than average compared to other similar keywords. So your ads are less likely to appear on the Yahoo Bing Network when that keyword is matched.	The keyword is competitive — your ads will show when customer search queries or other input include it — but its CTR is no better than average compared to other keywords targeting the same traffic.	The keyword is very competitive in the marketplace, and its CTR is higher than the average CTR of keywords targeting the same traffic.	If there's not enough data over the last 30 days to calculate a score, you'll see a dash (-) instead of a score.
